# Report

Praise the Lord. I thank God for every blessings hat he has showered upon our lives during last month. My son Ashish had been suffering from fever for several weeks and we had to take him at night for treatment. Now by God's grace he is well. I have been having financial crisis but through NCM support I could survive. I pray every day and read the Word of God. In every day I spend good time for my family. I visited twelve families in this month, shared gospel personally to nine people, A family from Latuda village, the elder of the family is Khimjibhai Solanki aged 55 years. He has tumor in stomach and he consulted to many doctors but nothing happened meanwhile he was informed about me. So I went to his home and met him he has having two sons and grandsons. I shared Gospel and they gave good respond. I had invited them for Sunday service. There is a person named Parmar Kishan Bhai, we shared Gsopel with him and he has responded positivily. In church all are doing well and growing in the Lord. We had all regular prayer meetings in church. This month I have not faced persecutions, by the God's grace. There was a sister named Chavda Amiben, she is 38years had been suffering from severe back pain for a long time. We the church prayed for her and the very next day she got completely healing.
