- Please pray for Tapati Halder suffering uterus cancer last one month, condition was pathetic she always sleep on bed never walk.

Report

Greeting in the name of Jesus Christ; by the grace of God we are doing well. We also want to thank God for you for helping us financially to extend the kingdom of God. We are spending quality time in the presence of the Lord along with my family members and they are growing in the knowledge of the Lord. By the grace of God we are doing ministry and making good progress in the ministry field and few new family came to faith .Sneha Devan was having family problem and her father was rude towards her giving lot of tension saying that find a job for you and give money. She was depressed because she was not finding any job. We prayed for her and counsel her and now she is doing well. Ayantika Mondal: This aunty came with her daughter but she was not able to talk, they went many places but there was no improvement. When she came to church and prayed after that she realises her daughter was little good. I give thanks to our Lord Jesus Christ. My mom was sick and had fever. I never control I went to doctor check up and doctor told take rest. We prayed continue my mom she was very well .Ayeri Ghosh age 7 years she also suffered dengue fever and she admitted in hospital last six days. That time all of church member prayed and God healed. Now she recovers of dengue but little weak.
